PROFESSIONAL SUMMARY

Results-driven Frontend Developer and MERN Stack Engineer with hands-on experience designing and building responsive, high-performance web applications. Proficient in React.js, Node.js, Express.js, and MongoDB, with emerging expertise in AI-powered application development using the Claude API. Passionate about clean code architecture, intuitive user experience, and delivering production-grade solutions. Currently pursuing MCA at Meghnad Saha Institute of Technology (MAKAUT), with a strong foundation in both frontend and full-stack development.

TECHNICAL SKILLS

Frontend	React.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Bootstrap
Backend	Node.js, Express.js, PHP, REST API Design
Databases	MongoDB, MySQL
Tools & DevOps	Git, GitHub, GitHub Pages, Vercel, npm
AI Integration	Claude API (Anthropic), Prompt Engineering, JSON-structured AI outputs
Soft Skills	Problem-Solving, Clean Code Philosophy, Responsive Design, Performance Optimization

PROJECTS

AI Startup Builder · React · Node.js · Express · Claude API · Tailwind CSS · Vercel <https://ai-startup-builder-vjbu.vercel.app/>

- Architected and deployed a full-stack SaaS platform that generates a complete startup kit from a single user-submitted idea using the Anthropic Claude API.
- Engineered structured JSON prompt pipelines for Claude to simultaneously produce a React/Tailwind landing page, business plan, branding package (name, colors, logo description), and an 8-10 slide pitch deck.
- Implemented tabbed output UI with PDF download, clipboard copy, and local storage project saving for seamless user experience.
- Designed modular codebase (/client, /server, /api) with environment variable configuration and deployment-ready structure hosted on Vercel.

J.E.R.V.I.S — Personal AI Assistant · React · Claude API · Node.js · Real-time NLP

- Built an intelligent conversational AI assistant inspired by Iron Man's JARVIS, leveraging Claude API for natural language understanding and context-aware responses.
- Implemented multi-turn conversation memory, task automation features, and a futuristic dark-mode UI with animated interactions.
- Integrated real-time response streaming and web search capabilities for up-to-date information retrieval.

Car Rental & Sales Platform (Final Year Project) · React · Node.js · Express · MongoDB · Tailwind CSS
https://github.com/SayanMazumder75/Final_Year_Project

- Developed a production-grade full-stack MERN application featuring dynamic car listings, a complete multi-step booking flow, and a secure admin dashboard.
- Implemented JWT-based user authentication, RESTful APIs, responsive UI across all devices, and MongoDB for data persistence.

- Covered core full-stack concerns: form validation, error handling, protected routes, and modular component architecture.

Doctor's Appointment Booking System · *PHP · MySQL · HTML5 · CSS3 · JavaScript*

- Designed and built a healthcare appointment management system supporting patient booking, doctor schedule management, and admin controls.
- Implemented server-side form validation, session management, and a normalized MySQL database schema for efficient querying.
- Delivered a fully responsive frontend using HTML5, CSS3, and vanilla JavaScript with accessible UI patterns.

EDUCATION

Master of Computer Applications (MCA)

Expected 2026

Meghnad Saha Institute of Technology, MAKAUT University — Kolkata, India — *Software Engineering, Web Technologies, Database Systems, Algorithms*

Bachelor of Computer Applications (BCA)

2021 – 2024

Kolkata, West Bengal, India — *Programming fundamentals, Data Structures, Networking, Web Development*

CERTIFICATIONS & CONTINUOUS LEARNING

- Self-directed mastery in React.js advanced patterns, state management (Redux, Context API), and performance optimization
- Hands-on study of AI/LLM integration — Claude API, prompt engineering, structured JSON output design
- Ongoing practice in full-stack architecture, RESTful API design, and cloud deployment (Vercel, GitHub Pages)
- Active GitHub contributor with version-controlled projects demonstrating consistent development workflow

LANGUAGES

Bengali (Native) **Hindi** (Fluent) **English** (Professional)

ADDITIONAL INFORMATION

- Open to full-time roles, internships, freelance projects, and remote/hybrid opportunities
- Highly motivated self-learner — continuously building and shipping personal projects to sharpen skills
- Strong communicator with a collaborative mindset and ability to work in cross-functional teams
